PROFESSIONAL SUMMARY

MERN stack developer with experience in full-stack web development using React, Node.js, Express.js, MongoDB, and MySQL. Skilled in authentication (OAuth2, JWT), API testing (Postman, Jest), and cloud/devops practices. Passionate about exploring new tech and continuous learning.

TECHNICAL SKILLS

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, JavaScript, React

Backend: Node.js, Express.js, Python, Java

Databases: MongoDB, MySQL

Authentication: OAuth2, Passport.js, JWT, Session Handling

Testing: Postman, Thunder Client

Tools: Jenkins, Docker, VS Code, Git, Github

Languages: Python, Javascript

Other: Operating System Concepts, API Development, CRUD Operations

PROJECTS

1. Authentication-Based Web App

Built a secure login/register app using React and Node.js. Integrated Google & Local auth via Passport.js, with session handling and user profile management.

2. EduPlay - Learning Platform

Developed a kid-friendly educational app with video lessons and interactive games. Created login/registration system and responsive UI.

3. Contact Management App

Built a CRUD contact manager with React Hooks and JSON Server. Users can add/edit/delete contacts with a clean UI.

EDUCATION

Bachelor of Technology in Computer Science

Vignan Institute of Technology and Science, Hyderabad.

Diploma in Mechanical Engineering

Government Polytechnic College, Masab Tank, Hyderabad – CGPA: 9.7

Secondary School Certificate (10th Class) – GPA: 10.0

INTERESTS

- Exploring new technologies in the MERN stack
- Reading technical and personal development books
- Open-source contribution and LeetCode problem-solving
